- Dispensing License (advantageous)
- Intermediate computer with proficiency in Microsoft Office or electronic Data Management systems, email, internet
- Travel locally and overseas for research-related meetings
- Excellent communication, interpersonal and strong organizational skills
- Able to work autonomously and within a team

Responsibilities include (but not limited to):

- Providing clinical services to participants (includes adult and children) enrolled onto the unit's clinical trials
- Management / Co-ordination of study participants
- Interface with non-unit clinical and trial staff and regulatory personnel
- Taking care of the patients during their active treatment and follow up period
- Develop acceptable standards in clinical service delivery of disability and outpatient care
- Provide medical expertise to improve and enhance research nurse-related patient care
- Assist with allergy consultations at Groote Schuur Hospital
- Ensure fair and ethical treatment of all patients involved in clinical trials
- Taking care of the patients during their active treatment and follow up period.
- Collecting, compiling and Analysis of patient's data
- Ensure proper maintenance of patient records, and data management including entry of data into electronic database
- Ensure that the study patient case record forms and clinical documentation meets good clinical practice standards

Additional Information:

- 6-12 months Fixed Term Contract
- Working hours: 20 hours per week (Part-Time)
- Position to be based in Masiphumalele

To apply, interested applicants are requested to [click here](#) to complete the online application process with a **cover letter and updated CV, including 2 to 3 contactable references**

Closing Date: 26 September 2025

Only shortlisted candidates will be contacted. Should you not receive a response within 30 days of the closing date, please consider your application unsuccessful.
